In this economically difficult COVID-19 Period, Business Owners must be very careful that the need for Income does not destroy the safety of potential Customers and the Loss to Vulnerable Members of Society. This can be done Innocently, Negligently or Intentionally. The following Record of an example of such a possibility is being shared below. Please be advised accordingly.

LARCENY WITH MANNEQUIN ASSISTANCE. ***(Not YET a Summary or Indictable Offence***). 26/03/21.

The action noted above, occurred in broad daylight, Mon/22/Mar/21, 3.05pm exact, on Lower Charlotte Street, in front of Place 39, Our Fashion Shop, with the assistance of one of their Mannequins that was being displayed outside Place 39, on the very narrow pavement at the end of Charlotte Street and used by the Pickpocket Thieves, in order to make a successful Assault and Larceny, or Pick Pocket of my much used, expensive Cell Phone, Counselling for FREE.

2 men took part in this Larceny, one assaulting me from in front pushing me against the said Mannequin, which was dislodged from its Hook, used to support it and the other man, the Abettor, picking my pocket and holding the phone in his right hand, behind the Mannequin, making the phone not visible when I turned around, with his left hand holding the Mannequin from the front.

I quickly pushed both of them off and stood prepared to fight, saying loudly "this is a Pickpocket and I shooting" They both stood still when hearing that, so I saw them clearly and the Abettor from behind said to me, holding the front of the Mannequin with his left hand to stop it from falling as it came off the hook it was on when I was pushed onto it, "If you shooting you have to shoot this Mannequin". Showing his face clearly as both of them were not wearing Masks.

I took my eyes off the 2 men for a few seconds to talk to the young female Manager and the male Shop Assistant in the shop and after I looked around they had disappeared.

I continued walking down Charlotte Street and went to check the time on my phone and it was not in the right Patch Pocket normally used to hold it. ***A phone which allows access to my Bank.***

I returned to the Shop 20 minutes after the theft, offering my Call Card and informing the young female Manager, who I saw during the incident, that I was going to the Police. She remembered the incident, her mother telling her to hang back the Mannequin on its support but was reluctant to speak to the Police, became verbally abusive, closing the shop doors in my face.

I Reported the Larceny to the Central Police Station on St. Vincent Streety and was immediately attended to by Sgt. Kervin Mcwellington and gave a Statement to CID WPC Brown. Gave all the necessary details to find and charge these 2 men and manage the present practice of placing of

and display of Mannequins on the pavement of Lower Charlotte by Businesses, innocently or negligently allowing Assaults and Battery, Larceny to happen.

In addition, that practice by Business Owners on Lower Charlotte, putting their Mannequins outside their Business Locations on this very narrow pavement, reducing the walking space, leaving only one person to walk at any one time safely and any upcoming person to step aside on step into the road, HAS TO CEASE IMMEDIATELY, TO STOP POTENTIAL VIOLENCE TO ALL OUR CITIZENS, ESPECIALLY OUR VULNERABLE ONES.

If the efficiency I saw at Central Police CID is utilised on their investigation of this Larceny, catching the Thieves, hopefully using the Summary Court System, but in an Indictable Offence manner, which brings a 5-year minimum Prison Term, I should have my phone back soon and the Port of Spain City Corporation will take necessary action to stop this ***Potential Violence to Women and Men on the City Streets, especially Senior Citizens.***

Gave the female Head of CID the Introductory Documents of ***The Purple Ribbon Campaign aka. Regional Taxi Travel Safety Net*** as she congratulated this initiative by MAVAW and others. Link for the Campaign at https://www.archive.org/details/purple-ribbon-campaign-executive-summary .

Our Pro Bono Legal Consultant to MAVAW and IMDTT, was advised that I will be continuing this matter and if I have to go to Court, we will find the funds to retain their services, since my phone is an essential tool to do all my work, free socially and at a cost otherwise and I still have a lot of work to still do for my beloved Nation.

Already 3 Presidents of Maxi Taxi Routes, the Chairman of Penal/Debe Corporation, the Chairman of Siparia Corporation, the Chairman of Diego Martin Corporation and the Chairman of Mayaro/Rio Claro Corporation have shown great interest in participating in a Community Psychologist Roundtable to create a ***Regional Taxi Travel Safety Net*** to ***stop travellers using the Taxi Service from any future fatal and other Violence.***
